If I could turn back the time,

I would

...

because

"If I could turn back time I would pay more attention when you gave us instruction because my friend lost time explaining everything to me."

"If I could turn back time I would ask my classmate for help, I would understand it faster."

"If I could turn back time I would divide the work in our group more effectively because sometimes we weren't sure what each of us should do."

"If I could turn back time I would ask you to explain the homework again because I'm still not sure what I should do."

"If I could turn back time I would do the homework, I couldn't participate in the lesson almost at all and I was bored."
